Mazaharul Islam

FULL STACK SOFTWARE ENGINEER

Jashore, Bangladesh +880 1886-575932 swe.mazaharul@gmail.com
mazaharul.site in/itsmaza itsmaza

PROFESSIONAL SUMMARY

Full Stack Engineer specializing in Next.js, Node.js, and TypeScript with hands-on experience building production-ready web applications. Strong foundation in Data Structures & Algorithms applied to real-world system design — including database optimization, API architecture, and caching strategies. Currently deepening expertise in DSA and algorithmic problem-solving to architect more efficient and scalable systems.

TECHNICAL SKILLS

Frontend	Next.js, React, TypeScript, Tailwind CSS, Redux
Backend & Database	Node.js, Express.js, PostgreSQL, MongoDB, Prisma ORM, Redis, REST API, WebSocket
Core Engineering	System Design, API Architecture, DSA, Caching Strategy, Atomic Transactions
Tools & DevOps	Docker, Git, GitHub Actions, Vercel, Stripe, JWT

EXPERIENCE

Full Stack Developer · Full-time

2023 — 2024

NextWeb BD · Bangladesh

- Built and maintained modern client-facing web applications using React, TypeScript, and Node.js, ensuring responsive design and reliable performance.
- Developed and integrated RESTful APIs, collaborating with cross-functional teams to support seamless frontend and backend functionality.
- Participated in code reviews, troubleshooting, and optimization efforts to improve code quality and maintainability.

SELECTED PROJECTS

FinVault — AI-Based Banking Platform · Next.js, TypeScript, MongoDB

- Built a full-stack AI-powered fintech banking platform with transaction management — users can send money, track spending, and manage finances through a clean dashboard interface.

Voter Portal — Voter Search System · Next.js, MongoDB

- Built a high-performance voter search system for fast lookup across large multi-ward datasets; optimized filtering logic for efficient data retrieval at scale.

FlexIn — AI-Powered E-commerce Platform · Next.js, Node.js, Redis

- Built a scalable e-commerce platform with O(1) cart access via Redis and an AI model-based product recommendation engine that surfaces relevant items based on user behavior.

EDUCATION

Higher Secondary Certificate (HSC) — Business Studies

2022 — 2024

Accounting, business studies, and finance fundamentals with emphasis on analytical thinking.

Secondary School Certificate (SSC)

2019 — 2021

Secondary education with a strong foundation in mathematics, science, and analytical reasoning.
